POLICEMEN GO ON SKATE.

* * * Los Angeles, Calif., Aug. 28.—It experiments now being conducted prove successful, Los Angeles police officers appear to have a roller skate suited to the police force. The experiments are being conducted under the direction of Chief Sebastian, aided by several heavy-weight officers. The skate used is a new model proposed by a peculiar movement of the foot. Heavy-weight policemen appear to have the advantage over the light men as weight is one of the requisites for speed in using the new skates. It is declared a 200 pound officer can attain a speed of nearly 30 miles an hour. The Markets

STOCK PRICES GO UP SUDDENLY

With Nothing in Financial Situation to Show Reason for it, List Takes Improved Position From Opening.

By Evening Herald A. P. Leased Wire

New York, Aug. 28.—With no apparent change in the financial situation to which a revival of speculative sentiment could be traced, prices improved decidedly during the morning session on the stock exchange. A decline of three points in Canadian Pacific, due probably to foreign selling, stopped the upward movement shortly before noon and the entire market reacted. Union Pacific, Readings, U. S. Steel, an Amalgamated Copper falling back a point or more. The recessions generally were not sufficient to cancel the earlier gains entirely. The firmness shown by the market was ascribed to the improved labor situation as well as to short coverings. Bonds were irregular.

Trading was on a very small scale during the late afternoon, but the market displayed a good undertone, the list rising to the high prices of the forenoon or above. The weakness at midday was attributed to the vigorous bear drive, which was abandoned when supporting orders were placed.

The market closed firm.

Prices fluctuated with an extremely narrow range in the closing hours. The bulls seemed content with today's results, which showed pretty generally advances of 1 to 2 points and the bears after being repulsed several times, were disposed to await a more opportune time for hammering the market.
